ABSTRACT

Ohio's 1974 library directory is divided into sections by type of library: public, college and university, school district, special, and institutional. In each section, the directory listing is followed by tables of the 1973 statistics on circulation, holdings, expenditures and, for public libraries, income. The state library is described in terms of services, organization, and personnel. Addresses are also provided for professional associations, state library advisory groups, and state-funded, multi-county interlibrary cooperative projects. (SL)

INTRODUCTION

The Ohio Directory of Libraries is compiled chiefly from information supplied by public, academic, elementary and secondary school, special, and institutional libraries in Ohio through questionnaires sent by The State Library of Ohio.

For the first time, the Directory for 1974 includes a summary table showing statistical totals for Ohio public, academic, elementary and secondary, institutional, and special libraries, and The State Library of Ohio.

Arrangement of information is generally self-explanatory; footnotes have been used as needed. A dot leader (. . .) or an N/R in a data column indicates a non-response.

Public Library directory listings are based on information from the public library annual report sent by the State Library to the 251 public libraries on December 27, 1973. Of these, 250 responded. The six-page form collected information for personnel, services, resources and expenditures for calendar year 1973.

Libraries are listed by the name of the city in which the main library is located. Branch libraries open fifteen hours or more per week are listed under the main library. Names and titles of assistant librarians, coordinators, and department heads with system wide responsibilities are included for those libraries which have a staff of 30 or more persons.

Statistics furnished on the annual report forms were checked at the State Library and forwarded to the State Data Center for computer calculation. Questionnaires were also sent December 27, 1973 to the 88 county auditors' offices to collect data on the distribution of intangibles tax funds. The information from these questionnaires was compared with the reports received from the public libraries.

Area Library Service Organization (ALSO) statistics were taken from the annual report submitted by the ALSO January 2, 1974 and from the public library report forms filed by the twelve libraries which are members of the ALSO. These data are for the calendar year 1973.

Academic Library directory information was gathered by letters sent to 109 academic libraries by the State Library December 27, 1973. These libraries were asked to update the directory information listed in the 1973 Directory. In March 1974 directory data was obtained for an additional 15 libraries identified by the National Center for Educational Statistics. Academic library statistics were provided to the State Library by the National Center for Educational Statistics (NCES) of the Department of Health, Education, and Welfare, Washington, D.C. between February 21 and March 6, 1974. These data (for academic year 1972-73 and Fall 1973) were collected in the Higher Education General Information Survey sent to academic libraries by NCES in June, 1973 for response by October 1, 1973. Copies of the 124 reports were edited at the State Library and sent to the State Data Center for tabulation April 10, 1974.

School Library Media Center directory information was collected from questionnaires sent to 620 school districts March 11, 1974. This form requested name, title, address, and telephone numbers of directors, supervisors, or coordinators of library media centers employed at the school district level, directing, supervising, or coordinating the work of certificated library or media specialists in two or more school buildings. Statistics (for school year 1972-73) on school library media centers were collected in cooperation with the Ohio State Department of Education. As a supplement to the Principal's Report Form, questionnaires were sent to 4,737 schools by the Department of Education in September, 1973. Forms were returned from 4,130 schools and were forwarded to the State Library where they were edited before being sent to the State Data Center for data processing.

Special Library directory and statistical information were collected by questionnaires sent November 6, 1973 to the 154 special libraries which were listed in the 1973 Directory. The questionnaire requests information concerning the personnel, collection, and fiscal data for the most recently completed fiscal year. Responses were received from 85.

Institution Library directory and statistical information were collected on questionnaires sent November 9, 1973 to 46 state supported institution libraries in Ohio. Of these, 31 libraries responded to this questionnaire. The form requested information concerning personnel, collection, budget, and expenditures for the fiscal year ending June 30, 1973.

Data handling was done both at the State Library and at the State Data Center. Directory listings (and statistics for special libraries and institution libraries) were edited and typed on magnetic tape at the State Library. The printer produces "cold type" from this magnetic tape. Academic, public and school library statistical forms were edited at the State Library and then sent to the State Data Center. Printouts are checked for accuracy at the State Library and preliminary printouts of academic and public library data are sent to libraries for verification before printing.

These statistics are also used to compile Rankings of Ohio Public and Academic Library Statistics, which is printed at the State Library's Catalog Center and is available at \$3.25 per copy.

Information in this Directory was checked, and changes were made up through May 22, 1974. Notes of omissions and errors are invited. Thanks are expressed to the librarians, clerk-treasurers, auditors, school superintendents, and other officials who have supplied the data for this Directory.

Organization and Tax Support of Public Libraries in Ohio

Organization

There are seven types of public libraries organized under Ohio law. These are association, county district, county, joint school district, municipal, school district, and township libraries. Since 1947 the only type of library that can be created under Ohio law is the county district library. However, in certain circumstances, municipalities with populations of 25,000 or more may also organize libraries.

Any public library or association library giving public library service may secure support from the "classified property tax" or, as it is more commonly called, the county intangibles tax fund, provided it is willing to give service to residents of the county.

Before 1931 libraries were supported by real estate tax levies or by gifts and the income from endowments. Libraries were established by, and organized as, parts of political subdivisions (city, school district, township, county, etc.) willing to support them. Now all types of libraries receive their primary support from the county intangibles tax fund; and today about the only distinction left between the several types of libraries is the size of their governing board and the way this board is appointed.

The board of an **association library** is appointed according to the rules of the individual library association as set forth when it received its State charter. (Sec. 1713.28 R.C.) There are 18 association libraries in Ohio receiving intangibles tax support.

The **county library** board has six members, appointed by the judge of the court of common pleas. (Sec. 3375.06 R.C.) There are 3 county libraries in Ohio.

The **county district library** board has a membership of seven: three appointed by the common pleas judge, or judges, and four by the commissioners of the county. (Sec. 3375.22 R.C.) There are 43 county district libraries in Ohio.

There is but one **joint school district library** in Ohio. Six trustees, three appointed by each of the two boards of education, make up the library board of this library.

The **municipal library** has a board of six members, appointed by the mayor. (Sec. 3375.12 R.C.) There are 21 municipal libraries in Ohio.

The **school district public library** has a board of seven members appointed by the local board of education. (Sec. 3375.15 R.C.) There are 160 school district public libraries in Ohio.

The **township library** is governed by a board of three members, appointed by the township trustees. (Sec. 3375.10 R.C.) The township trustees confer upon this board such authority as they deem necessary. There are 4 township libraries in Ohio.

In addition to the county and county district libraries, certain libraries in Ohio have been designated by the State Library Board as "county extension center libraries." (Sec. 3375.05 R.C.) These are libraries which meet certain standards established by the State Library Board and which have formally resolved to provide for extension of their services to residents who live in their county but outside their regular service area. County extension libraries are, under certain conditions, eligible to receive state aid and other services of the State Library of Ohio to assist in extending their services to county residents.

Libraries may form an **Area Library Service Organization** which is governed by a board of trustees of at least seven and no more than fifteen members, selected from among the members of the boards of trustees of the participating public libraries (Sec. 3375.70 R.C.). There is one Area Library Service Organization in Ohio.

Tax Support

Public libraries in Ohio are supported by a tax levied on intangible personal property. Designated in law as the "classified property tax", this is more commonly referred to as the intangibles tax. This is a county tax levied on intangible personal property such as investments and deposits. An example of such personal property is the dividend paid on stocks.

Intangible personal property is taxed in two different ways.

One tax (Sec. 5707.03 R.C.) is collected by the State and is returned to the county of origin for the use of local governments. Libraries may not receive any funds from this source. The table on page 76 shows receipts for this tax.

The other tax (Sec. 5707.04 R.C.) is collected by the county and is the tax from which libraries secure their support. This is levied on intangible property listed on the classified tax list in the county auditor's office and the duplicate in the county treasurer's office.

Allocation of the county intangibles tax fund is made by the county budget commission, composed of the county auditor, the county treasurer and the prosecuting attorney.

The county budget commission estimates the tax collection for the coming year, allocates to the libraries on the basis of their need as presented in their budgets. Funds not allocated to the libraries are returned to the general operating fund of the political subdivisions from which they were collected in direct proportion to their collection.

Public libraries are eligible to participate in funds available under the State and Local Fiscal Assistance Act of 1972 ("revenue sharing funds" paid under Public Law 92-512) inasmuch as libraries are specifically named as a priority expenditure under this act. Since revenue sharing funds are paid by the U. S. Treasury directly to county, municipal, and township governments, library boards must apply for such funds directly to the appropriate local government bodies rather than to the County Budget Commission.

Checklist of Services

As a special library and as the State agency responsible for library service and development, the State Library of Ohio offers a variety of services to libraries, institutions, and individuals. The following list is not comprehensive. Inquiries on these and other services are welcome.

- Interlibrary Loans** --- from a million volume collection including federal and state documents. Submit requests on standard ALA interlibrary loan forms or on forms available from the State Library. Books are loaned for one month. Borrowing library pays postage charges.
- Location of Items** --- from the Ohio Union Catalog which includes 2,000,000 titles in 31 major Ohio libraries. Requests should be sent to the State Library by mail. Urgent needs may be met by calling the Union Catalog collect at (614) 224-3932.
- Photocopy Service** --- Periodical articles are available to libraries from the State Library collection at 70 cents per page. The State Library has an arrangement with the Ohio State University by which copies of periodical articles held by OSU are made available to public libraries on this same basis. Request forms are available with-out charge.
- Reference Answers** --- Reference questions may be referred to the State Library.
- Documents Program** --- All Ohio documents are filed with the State Library. The Library also supplies depository libraries with copies of State publications.
- Consultant Service** --- As a part of its public library development program, the Library provides advice on program development and planning.
- Placement Office** --- Receives, screens, and refers applications to public, academic, special and other libraries. Maintains lists of positions available.
- Catalog Center** --- Books are cataloged under contracts for public, academic, school and special libraries.

(1) Does not include those stops made in summer only.

(2) Does not keep separate circulation figures.

(3) Bookmobile service began July, 1973.

* Circulation figures shown are for those libraries contracting for State Library bookmobile service and are not included in total circulation statistics for public libraries.

Additional libraries (McConneville, Ottawa, Wadsworth) operate mobile units to reach rural readers. These are not operated as full scale bookmobiles nor are they operated full time.

(1) Figure used is total available for library distribution after state and local fees are paid.

(2) Includes any tax levied on real property specifically for current operation or appropriated for that purpose, as well as intangible taxes.

(3) In computing the percentages of intangible taxes distributed to libraries, the figures under Intangibles Tax Distribution to Libraries are used. All percentages are rounded to the nearest full percent.

*There is an area of inter-relationship between these two taxes. In the case of bank deposits, one class of intangible property, if the individual declares the tax and pays it, the money goes into the county intangible fund and libraries along with other subdivisions may share in it. However, if the bank declares the tax and pays it, which is the usual procedure, the money is collected by the state, goes into the local government fund, and is not available to libraries.
